## SECRET CONTRACT PRECONTRACT APPROVAL RECORD (PART TWO) MO-15042. Amendment No. 1 The services and equipment being procured by this Contract No.\_ \_\_\_\_are in furtherance of the \_\_\_OCART MO-15042Program(s), the nature of which cannot be publicly disclosed for security reasons. The Contracting Officer therefore determines that this procurement must be accomplished by negotiations pursuant to the authority of Section 3(a) of PL 81-110 and Class Determination and Finding, OXC 2122, signed by the DDCI on 15 October 1961. Certification of funds for this contract will be handled under the procedure approved by the Director of Central Intelligence on 15 December 1956 which, in effect, results in all covert expenses involving issuance of Treasury Checks being accumulated in a separate account within the Finance Division. The amounts in this account will be periodically scheduled for certification of the vouchers by the Director. This procedure eliminates the necessity for a separate certification of authority under Section 8(b) of Public Law 110, 81st Congress (formerly 10(b) - see 85-507 dated 7/7/58) for each contract. The following comments describe the procurement hereby effected, the terms and provisions generally of this contract/amendment, and a resume of major issues negotiated: Contract No. MO-15042 covers the procurement of PF-1 fuel for the OXCART/KEDLOCK Vehicles. Amendment No. 1 procures an additional quantity of 1,480,000 gallons of fuel for the Area for the period November 1963 through June 1964 and 80,000 gallons for the period November 1963 through June in support of the TAGBOARD 1964 for delivery to 25X1 This procurement is being made with Mobil who submitted a fixed price bid in competition with three other suppliers (Ashland, Humble, Shell). Mobil submitted the lowest bid F.O.B. for these particular destinations for specification fuel. These bids were evaluated by the Air Force and the request made to CIA to procure the fuel. 25X1
